SR PORTABLES

Take your power with you

Monocrystalline Solar Panel 40W
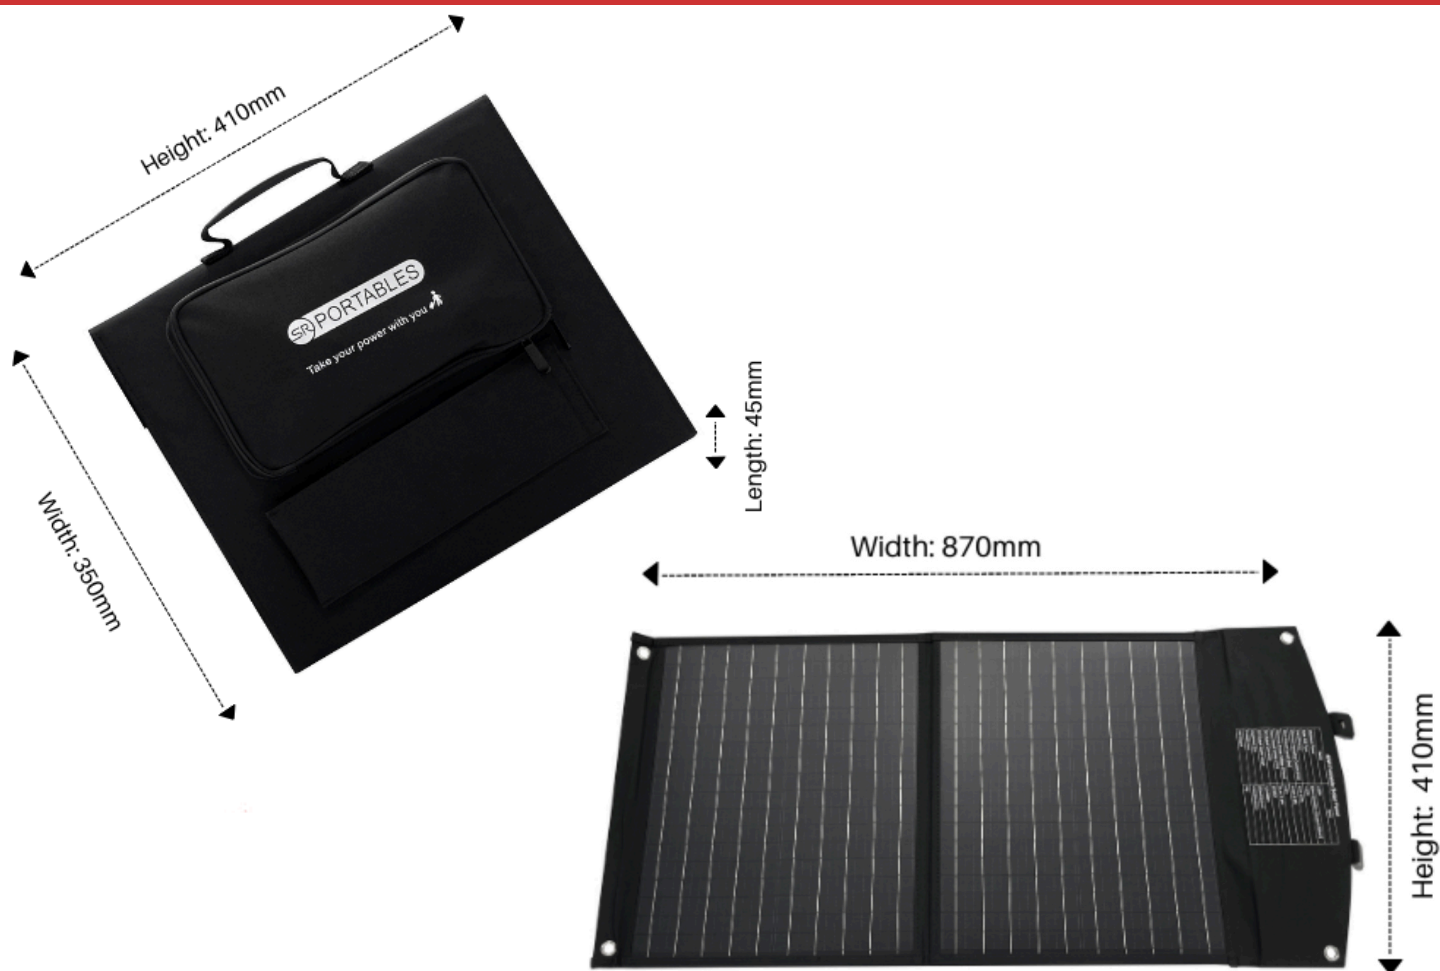

Instruction Manual

SOLAR PANEL 40W

Product Features

- Eco-friendly
- High efficiency
- Portable and lightweight
- Easy to set-up
- Support simultaneous charging of devices
- Waterproof rugged durability

Please visit our website www.srportables.com to register your product

Height: 410mm

Width: 350mm

Length: 45mm

Width: 870mm

Height: 410mm

DC charging cable provided with the panel.

Safety & Warranty

Safety Tips

- Do not bend the solar panel.

- Do not immerse the solar panel in water.

- Keep the solar panel away from extreme heat or fire.

- Clean the solar panel with a dry cloth.

- Do not pierce the solar panel casing with any sharp objects.

- Do not disassemble the panel – contact our technical team if you have any issues with the panel.

Warranty

Please refer to the Warranty section on www.srportables.com for more details on product warranty.

The solar panels DO NOT include a Solar Charge Controller. A 10A Solar Charge Controller can be purchased separately.

Technical Specifications

ITEMS	SPECIFICATIONS
Maximum Power	40.5W ± 5%
Solar Cell Type	Monocrystalline
Cell Efficiency	≥19.5%
Maximum Operating Current (Imp)	› 2.2A ±5%
Short Circuit Current	› 2.45A ±5%
Maximum Power Voltage (Vmpp)	≥18V
Open Circuit Voltage (Voc)	23.4V ±5%
DC Output Connector	DC5521 x1 or Other Type
IP Rating	IPX4
Working Temperature	-30℃ ~ 75℃
Cloth Material	Camouflage PVC
Expanded Size	870x410x5mm
Foldable Size	410x350x45mm
Net Weight	2kg
